

DRI-WEAVE

DRI-WEAVE is a tough, woven reinforced poly featuring an 8x8 scrim pattern and HDPE coating on both sides, making it an economical option for many enclosure and containment applications.

FEATURES

- * 8X8 scrim pattern
- * Coated with HDPE on both sides
- * Fire retardant meets NFPA 701 Test Method II
- * Each roll is packaged in a box for easy handling and storage
- * Highly tear resistant
- * Fabric weight: 76 g/sq. meter

APPLICATIONS

- * Construction enclosures
- * Temporary liners and covers
- * Scaffolding enclosure
- * Temporary walls
- * Erosion control
- * Jobsite equipment and materials cover
