

SAFETY BARRIER FENCE

Product Code: DBF4100

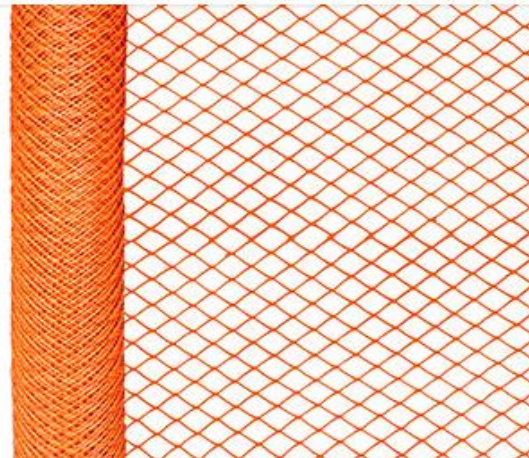

Pallet Quantity: 20 rolls

Description: Con-Dri's Diamond Barrier Fence is a high visibility warning fence made of high density polyethylene. Diamond Barrier Fence can be installed on wooden stakes, metal rods, traffic cones, or other support structures. The diamond mesh ensure aesthetic appeal while the smooth top prevents the cutting and scraping of adjacent materials during installation.

Use: There are a wide array of uses for Con-Dri Diamond Barrier Fence, including construction warning barricade, crowd control, temporary construction safety fencing, etc.

Features

- * Roll Size: 4' x 100'
- * Roll Weight: 20 lbs
