

Carpet Film

Con-Dri's carpet film is a clear, self-adhering poly film specifically designed to temporarily protect synthetic carpet from dirt, paint, dust, debris, and much more. Carpet film is a great way to protect carpet during moving, remodeling, painting, and just about any other project.

Ensure the carpet is clean and dry before installing carpet film. Apply pressure to the film as you begin to unroll it and continue to smooth the film while covering the area. Cut the film with a sharp blade when done.

SKU	DESCRIPTION	ROLL SIZE	COLOR	PALLET QTY
CF24200	CARPET FILM	24" X 200'	CLEAR	81
CF36200	CARPET FILM	36" X 200'	CLEAR	99
CF36500	CARPET FILM	36" X 500'	CLEAR	49
CF361000	CARPET FILM	36" X 1,000'	CLEAR	36

KEY FEATURES

- Tear and puncture resistant
- Non-slip surface
- Reverse-wound for easy application
- Protects carpets for up to 30 days
- Easy to remove
- Recyclable

SPECS

- Film Backing: Polyethylene
- Adhesive Type: Pressure-sensitive acrylic
- Film Thickness: 2.5 mil +/- 10%
- Adhesion: 16-28 oz./in.
- Tensile Strength (MD): >8N/mm
- Tensile Strength (TD): >6N/mm
